

### REMARKS

1. Applicants have amended the title as requested by the Examiner.
2. Applicants are submitting a substitute specification on the attached pages as requested by the Examiner. The Applicants also submit Replacement Figures for the figures previously numbered 15-19. The only changes to the Figures are to their numbering (now 5-9 instead of 15-19).
3. Applicants have amended claim 65 as suggested by the Examiner to address the 35 U.S.C. 101 rejection of claims 65-75.
4. The Examiner had rejected claims 65-86 under 35 U.S.C. § 112. As correctly surmised by the Examiner, the shaded diagrams of the specification included information relevant to the claims (e.g., diagrams 5 and 8 on pages 27 and 29, respectively, of the substitute specification illustrate a protocol syntax and sample usage, diagram 15 on page 34 illustrates a rule syntax, diagram 6 on page 28 illustrates a demux syntax, and diagram 12 on page 33 illustrates a search syntax). Support for the claim limitations are also found in other places in the specification. For example, the specification includes a sample of classification language code in diagrams 16 and 18. In addition, the specification includes code for a sample protocol beginning on page 37. Thus, Applicants disagree that the specification fails to enable or provide written
